## Man charged with shooting player

By Holly Wells  
ARIZONA DAILY WILDCAT

A 21-year-old Tucson man was arrested in connection with the Oct. 10 shooting of UA football player Sheldon Watts. Fabian Martin Flores, of the 1900 block of East Jason Vista, was arrested 8 p.m. Thursday and booked into Pima County Jail. He has been charged with aggravated assault causing a serious physical injury and aggravated assault with a deadly weapon. His bond has

been set at \$250,000.

According to police the arrest was a result of tips received from the community.

Sgt. Marco Barboa, Tucson Police Department spokesman, said police are not releasing any other information because the investigation is ongoing.

Watts, a pre-business freshman from Fresno, Texas, was shot during a party with between 100 and 200 people near East Broadway Boulevard and South Wilmot Road.

Watts was shot in the arm and chest and remains in fair condition at University Medical Center.

Police said Watts was an innocent bystander at the party and had not been involved in the confrontation that led to the shooting.

Watts, who did not travel with the team because of his redshirt status this season, was at the party with three other redshirt football players.

An 18-year-old high school student was also grazed during the shooting, but did not wish to press charges.

## UA student arrested for pie throwing

Tucson man also arrested for throwing pies at Coulter

By Holly Wells  
ARIZONA DAILY WILDCAT

A UA student and a 24-year-old Tucson man were arrested on three charges each, including a federal charge, after throwing pies at political speaker Ann Coulter during her speech Thursday night at Centennial Hall.

Coulter, an author and columnist, was interrupted when Phillip Edgar Smith, a 24-year-old political science senior, and William Zachary Wolfe came onstage and attempted to hit her with the pies.

They have each been charged with assault and disorderly conduct, both misdemeanors. They were each also charged with one count of criminal damage, a class 5 felony, after it was discovered they had damaged a muslin scrim used as a stage backdrop. Centennial Hall staff estimated the damage to be about \$3,000.

Portions of the pie struck Coulter on her face and on her dress. Coulter made light of the situation, saying to the crowd of 2,500, "From that far away they can't even hit me."

Smith and Wolfe were detained by audience members and arrested by the University of Arizona Police Department. Smith told police he and Wolfe had planned the incident two days before Coulter's speech.

Smith said they had seen all of the police at the event but had decided to go for it anyway. Smith told police

## FAMILY FUN

MATT ROBLES/Arizona Daily Wildcat

The Allen family enjoys a lunch at Frog & Firkin, 874 E. University Blvd., Saturday afternoon. Jeremy Allen, bottom left, a senior majoring in English, was one of many UA students who had their families in town for Family Weekend.

## FCS school renamed to honor alums

By Georgeanne Barrett  
ARIZONA DAILY WILDCAT

The School of Family and Consumer Sciences will be renamed at a ceremony Friday to honor two UA alumni.

The school, which is part of the UA College of Agriculture and Life Sciences, will be renamed the John and Doris Norton School of Family and Consumer Science for the Nortons who have committed \$4 million to a new building for the school, and toward the John and Doris Norton Fathers, Parenting and Families Endowed Chair, established in 2000.

## Rainbow arch could drape downtown

By Natasha Bhuyan  
ARIZONA DAILY WILDCAT

Despite Arizona's drought, a rainbow could permanently hang over downtown Tucson if Rafael Viñoly has his way.

Rafael Viñoly Architects, an international award-winning firm, was hired by the UA last May to design the UA Science Center, a collaborative initiative between the UA and the City of Tucson, which involves the relocation of the Flandrau Science Center.

Since the center will span along a bridge across Interstate 10 and the Santa Cruz River, two designs were considered: One would

en downtown Tucson, will include new shops, Tucson Origins Heritage Park, restaurants, office space, housing and Fox Tucson Theatre.

In addition, Rio Nuevo will also contain the new UA Science Center, a collaborative initiative between the UA and the City of Tucson, which involves the relocation of the Flandrau Science Center.

Since the center will span along a bridge across Interstate 10 and the Santa Cruz River, two designs were considered: One would
